

### **Points for Developing Presbytery Motions/Recommendations**

- Motions should clearly state what needs to be achieved without any preamble. Such explanation should precede the motion in the body of the report
- Motions should include a timeline for completion of the identified task and, if necessary, interim dates that support the end time
- Motions should name an individual, Standing Presbytery Committee or other working group who will have the responsibility to complete the task
- Motions should be clear on what/why, who and when

Presented at the February 10, 2026 Presbytery Meeting
